STYLE TILES

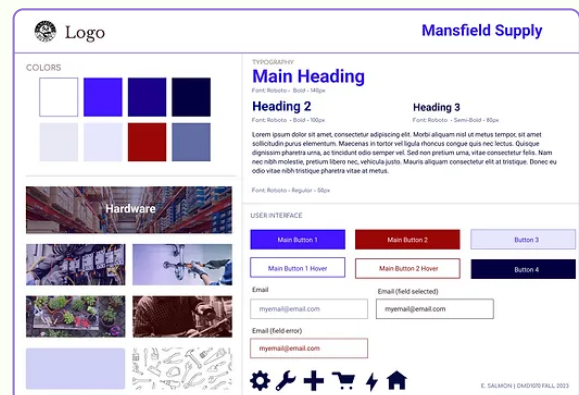

This is a redesign of the existing [Mansfield Supply](#) Website. I designed two versions of style tiles in **Figma**, with different color palettes, fonts, and aesthetics. In the end I chose the first style tile, because I liked the more down-to-earth color palette.

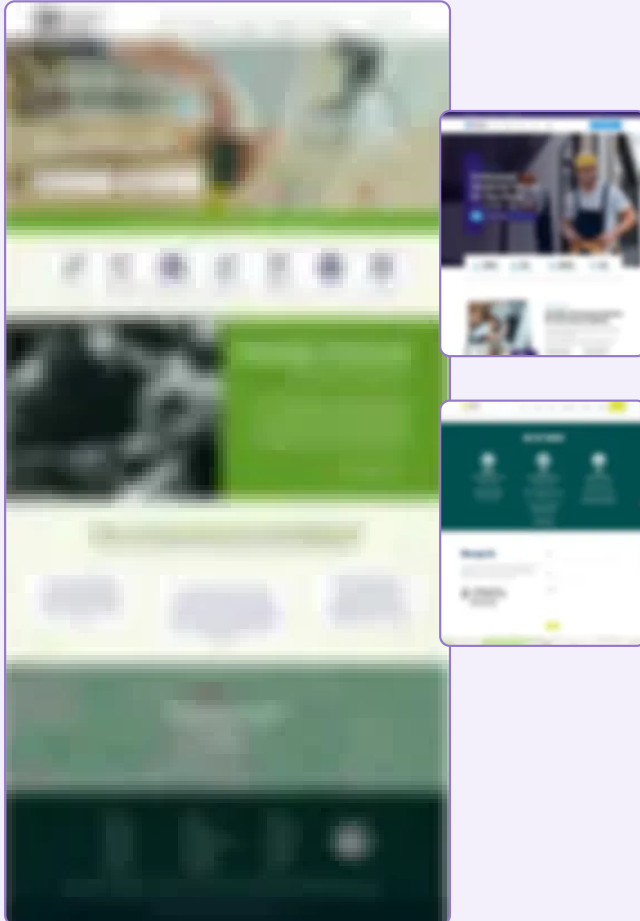

[View Website](#)

Design 1, with a green color palette and serif fonts. For this project I decided to use Libre Baskerville + Open Sans for paragraphs and subtitles.

Design 2, which has a more corporate theme. Mansfield Supply is a local family-owned business, so this also felt too formal and less down-to-earth.

SITE MOCKUP

I did a mockup of the home page, using a few references from around the web (included) to come up with layouts and site content.
